Fees:	208
Books:	316
Materials:	527
Portfolio: ⁵	240

TOTAL: \$2,206

TERM FOR SIX TERMS OF PROGRAM COURSES: \$13,351

- ¹ Fees are estimates only and do not include any pre-requisites, electives, or general education courses.
- ² Book costs may vary if alternate texts are selected by your instructor. This does not include general education courses. These include required texts only. Recommended or supplemental texts will require additional expense.
- ³ Material costs include notebooks, drawing and writing materials, tracing and sketch pads, digital print cards, storage media, folders and presentation materials.
- ⁴ Digital camera prices vary widely. You are required to have a minimum 6 megapixel digital SLR with full manual control over focus, shutter speed and f-stops. This camera will be used in all of your courses throughout the program. Additional lenses, memory cards, card readers and other accessories are optional and may add to the cost of the equipment. See vc.chemeketa.edu/art265 for detailed camera information.
- ⁵ Traditional print portfolios as well as digital portfolios are required. This price represents the current upper end of the price range.

ADDITIONAL NOTES:

Actual expenses may vary greatly. The costs estimated here include only required courses and are based on high averages as reported by students and faculty. Additional coursework will incur additional tuition, fees, books and materials. The number of times you print a project will also affect your costs. Macintosh computers with all required software are available for your use during class and open lab hours, including most weekends throughout the term. A home computer, while not required, is highly recommended. Student discounts are available for both computers and software through the campus bookstore with a current student ID. Recommendations on current software. Macintosh configurations, and peripheral devices are available through the VC program. You may qualify for assistance with these costs through Financial Aid.
